

Chet T. Moritz, PhD

Curriculum Vitae

Home Address:

13403 NE 193rd
Woodinville, WA 98072
425 780-0298

Office Address:

1959 NE Pacific St.
Box 356490
University of Washington
Seattle, WA 98195
206 598-8102

Email: ctmoritz@uw.edu

Personal Data

Born in Bellevue, Washington on Dec. 20, 1975
United States Citizen

Education

Undergraduate

1995-1998 Bachelor of Science, Zoology, University of Washington, Seattle, WA

Graduate

1999-2003 Doctor of Philosophy, Integrative Biology, University of California, Berkeley, CA

Postgraduate Training

2003-2004 Postdoctoral Fellow, Integrative Physiology, University of Colorado, Boulder, CO

2004-2008 Senior Fellow, Physiology & Biophysics, University of Washington, Seattle, WA

Faculty Positions Held

2009-2010 Research Assistant Professor, Department of Physiology & Biophysics,
University of Washington, Seattle, WA

2010-2014 Assistant Professor, Rehabilitation Medicine, University of Washington, Seattle,
WA

2010-2014 Assistant Professor (joint), Department of Physiology & Biophysics, University of
Washington, Seattle, WA

2010-present Graduate Faculty, Neuroscience Graduate Program, University of Washington,
Seattle, WA

2014-present Associate Professor, Rehabilitation Medicine, University of Washington, Seattle,
WA

2014-present Associate Professor (joint), Department of Physiology & Biophysics, University of
Washington, Seattle, WA

2014-present Associate Professor (adjunct), Department of Electrical Engineering, University of
Washington, Seattle, WA

Hospital Positions Held – N/A

Honors

1995-1998 Washington Scholar: four-year undergraduate tuition waiver

1998 Graduated *Cum Laude* from University of Washington Honors Program

2001 Outstanding Graduate Student Instructor, University of California, Berkeley

2003 American Society of Biomechanics President's Award

2008 Manuscript selected as one of top scientific advances by editors of *Nature*

2009 American Heart & Stroke Association Scientist Development Grant recipient
2009 National Institutes of Health EUREKA Award recipient
2010 Recognized at UW School of Medicine Distinguished Faculty Celebration
2012 DARPA Young Faculty Award
2013-2016 Allen Distinguished Investigator
2015- International Research Consortium on Spinal Cord Injury, Christopher & Dana Reeve Foundation

Board Certification – N/A

Current License to Practice – N/A

Professional Organizations

2002-2010 American Society of Biomechanics
2003-present Society for Neuroscience
2005-2014 American Physiological Society

Teaching Responsibilities, University of Washington, Seattle, WA

2006 P BIO 520A, Introduction to Matlab for Scientists, 1 credit (Autumn)
Responsible for course design, all lectures & grading

2009 BIOL 497B, Muscle Physiology and Movement, 3 credits (Winter)
Responsible for course design, coordination, and all lectures and exams

2010 BIOL 464, Muscle Physiology and Movement, 3 credits (Summer & Autumn)
Responsible for course design, coordination, and all lectures and exams

2010 REHAB 562: Graduate Seminar (Spring)
Present 1 guest lecture on Future Treatments for paralysis

2010-present NBIO 402, Disorders of the Nervous System, 3 credits (Annually in Winter)
Present 3 guest lectures annually (~10% of lectures)

2011 REHAB 521, Pathophysiology for Rehabilitation, 3 credits (Spring)
Present 4 lectures (all in-person lectures in this primarily online course)

2011- 2012 REHAB 503, Geriatrics, 3 credits (Spring)
Present 1 Guest lecture on exercise physiology and aging

2012 EE599: Graduate Seminar in Brain-computer interface (BCI) (Spring)
Present 1 guest lecture on BCIs to restore and regenerate motor function

2012-present REHAB 525, Exercise Physiology for Rehabilitation, 4 credits (each Spring)
Responsible for course design, all lectures and assessments

2012-present REHAB 562: Graduate Seminar in Neuroscience (Bi-annually in Spring)
Present 3 guest lectures on motor control, neuroplasticity, and neurotechnology

2014-present REHAB 520: Presentation Skills for graduate students (Bi-annually in Winter)
Present 1 guest lecture on effective presentations for research and teaching

2014-present BIOENG 499: Neural Engineering (Bi-annually in Winter)
Present 1 guest lecture on neuroprosthetics to undergrad/graduate students

Trainees Mentored in Research Laboratory

Post-doctoral fellows

- 2010-2012 Dianne Rios, PhD (co-mentor with Sarah McCoy)
- 2012-present Sarah Mondello, PhD (co-mentor with Phil Horner)
- 2014-present Ivana Milovanovic, PhD
- 2014-present Tom Richner, PhD (co-mentor with Adrienne Fairhall)

PhD students

- 2011-2012 Elena Donoso-Brown (Rehabilitation Sciences, co-mentor with Sally McCoy)
- 2011-2014 Charlie Matlack (Electrical Engineering, co-mentor with Howard Chizeck)
- 2012-present Aiva levins (Neurobiology & Behavior; co-mentor with Phil Horner)
- 2012-2015 Torey Gilberston (Rehabilitation Sciences, co-mentor with Sally McCoy)
- 2014-present David Bjånes (Electrical Engineering)
- 2015-present Fatma Inanici, MD (Rehabilitation Sciences)

Medical Residents

- 2009-2013 Alik Widge, MD PhD (Psychiatry)
- 2013-present Ryan Solinsky, MD (PM&R)

Medical Students

- 2012 Curt Lindley (UW School of Medicine)
- 2011-2012 Behnum Habibi (Case Western Reserve School of Medicine)

Physical Therapy Students

- 2010-2012 Karli Gutman (UW DPT Program)
- 2011-2013 Katherine Miller (UW DPT Program)
- 2012 Julia Selander (UW DPT Program)
- 2015-2016 Kyle Mark (UW DPT Program)

Undergraduate Students

- 2009-2012 Eric Secrist (UW Biology)
- 2010-2011 Peter Kim (UW Biology)
- 2010-2011 Ryan Miller (UW Biology)
- 2011-2012 Nathaniel Cook (UW Biology)
- 2011-2012 Anand Kaul (UW Molecular & Cell Biology)
- 2011-2012 Tia Secasiu (UW Molecular & Cell Biology)
- 2011-2012 William Wright (UW Bioengineering Capstone project)
- 2012 Frances Cho (Columbia Neuroscience – Summer CSNE REU)
- 2012 Danielle Lockwood (Arizona Bioengineering Summer CSNE REU)
- 2012-present Jan Jimenez (UW Freshman undeclared)
- 2012-2013 David Boe (UW Neurobiology)

2012-2015 Ryan Carlson (UW Biology)
2012-2016 Comron Ganji (UW Biology)
2012-2016 Alice Bosma-Moody (UW Bioengineering and Neurobiology)
2013 Jonathan DeShields (Morehouse Senior – Summer CSNE REU)
2013 Ebone Monk (Spellman College Junior – Summer CSNE REU)
2013-2016 Reni Magbagbeola (UW Physics/Biophysics)
2013-2014 Chloe Stiggelbout (UW Biology)
2014 Anna Johnson (UW Biology)
2014 Samuel Dreyer (Northwestern Univ. Junior – Summer CSNE REU)
2014-2016 Cooper Mellema (UW Neurobiology/Computational Neuroscience)
2014-2016 Oliver Stanley (UW Bioengineering and Neurobiology)
2015-2016 Anna Pendelton (UW Freshman – pre-major)
2016-present Annamarie Lahti (UW Freshman – pre-major)
2016-present Ryan Kelly (UW pre-engineering)
2016-present Josephine (Josie) D'Angelo (UW Neurobiology)
2016-present Chelsea Eduarte Nayan (UW Neurobiology)
2016-present Ben Pedigo (UW Bioengineering)
2016-present Jess Feeman (UW Bioengineering)

High School Students

2010-2011 Eliza Baird-Daniel
2014-2015 Saddle Morris
2015 Lily Oriith-Smith (Summer CSNE YSP student)
2015 Lucas Fiebig (Summer CSNE YSP student)
2016 Emily Boetschen (Summer CSNE YSP student)
2016 Amanda Nguyen (Summer CSNE YSP student)
2016 Thien Nguyen (Summer CSNE YSP student)

Highschool Teachers

2015 Alison Farrell (Summer CSNE Research Experience for Teachers - RET)
2015 Benjamin Hart (Summer CSNE Research Experience for Teachers - RET)

Editorial Responsibilities

2009-present Review Editor; Frontiers in Neuroprosthetics journal
2013-present Associate Editor, Brain-Computer Interfaces Journal

Special National Responsibilities

Center Leadership

2011-2013 Testbed Leader, NSF ERC in Sensorimotor Neural Engineering.
University of Washington, Seattle, WA
2014-present Deputy Director, NSF ERC in Sensorimotor Neural Engineering.
University of Washington, Seattle, WA

Grant reviewer

- 2009-2010 NIH study section ad-hoc member: ZRG1-F02B Sensory, Motor & Cognitive Neuroscience Fellowship Section
- 2011 NIH study section: ZHD1 DSR-K 52 Controller Development for Upper Limb Movement
- 2010 US-Israel Bi-national Science Foundation
- 2010-2012 Wings for Life – Spinal Cord Research Foundation
- 2012 NSF Division of Information and Intelligent Systems, Ad hoc reviewer
- 2013 NIH/NIBIB study section ad-hoc member: ZEB1 OSR-E(01) K-Award panel
- 2013 NIH/NINDS EUREKA Review panel: ZNS1 SRB N(04)
- 2014 NIH/NIBIB Training grant study section: ZEB1 OSR-F (J1) S R25-T32 panel
- 2015 NSF EPSCoR Track-2 (RII Track-2 FEC) Ad hoc reviewer
- 2015 Craig H. Neilsen Foundation SCIRTS LOI review panel
- 2015 NSF Science and Technology Center (STC) site visit panel chair
- 2015 DOD/CDMRP Peer Reviewed Medical Research program (PRMRP) Clinical Trial Award

Conference Organization

- 2014 Co-organizer: New Perspectives on Neuroengineering and Neurotechnologies. NSF-DFG (German National Science Foundation) conference at NSF headquarters in Washington, DC (Nov 2014)

Referee (33 Journals 2004-present)

Special Local Responsibilities

- 2005 Co-organizer: Howard Hughes Medical Institute Future Faculty workshop University of Washington, Seattle, WA
- 2005-2008 Post-doctoral representative to Faculty, Physiology & Biophysics University of Washington, Seattle, WA
- 2008-present K-12 science outreach: Future of Neurotechnology – Snohomish School District and University Child Development School University of Washington, Seattle, WA
- 2010-present Ad-Hoc Reviewer for the UW Royalty Research Fund

- University of Washington, Seattle, WA
- 2013 Research featured at Seattle Science Center *Minds & Machines* exhibit
 - 2014 Play *Calibration* on our research presented by Infinity Box Theater after extensive interaction with playwright Elizabeth Hefron
 - 2014-present Grant Reviewer, Sackler Scholars in Biophysics program; University of Washington, Seattle, WA
 - 2014-present Executive committee co-chair and grant reviewer, UW Institute for Neural Engineering (UWIN); University of Washington, Seattle, WA
 - 2014-present Chair of Walter C. and Anita C. Stolov Research Fund review committee. University of Washington, Seattle, WA
 - 2016-present Co-organizer: Future Faculty Fellows workshop University of Washington, Seattle, WA

Research Funding

Current Funding

- 2011-2021 Co-PI and Deputy Director (8% time) Center for Sensorimotor Neural Engineering (CNSE). National Science Foundation Engineering Research Center EEC-1028725. Rao (PI). \$4M/year total costs.
- 2011-2017 PI (5% time) NeuroGame Therapy to improve hand function following stroke. Bayley Family Stroke Care Fund in Rehabilitation Medicine. \$139,181.
- 2013-2016 Lead-PI (8% time). A brain-computer interface to re-animate the limbs following spinal injury: development of a Brain-Computer-Spinal Interface (BCSI). Paul G. Allen Family Foundation. Co-PIs Smith and Fairhall. \$500,000/year total costs.
- 2015-2017 Subcontract-PI (15% time) Plasticity and Activation of Spared Intraspinal Respiratory Circuits Following Spinal Cord Injury. DOD CDMRP SCIRP SC120209 (Reier, PI). UW Subcontract \$129,597/year total costs
- 2015-2018+ PI (15% time). International Research Consortium on Spinal Cord Injury. Christopher and Dana Reeve Foundation. \$200,000/year total costs.
- 2016-2017 Lead-PI (15% time) BIONIC: Bi-directional Optical Nerve Interface for Continence. GlaxoSmithKlein (GSK) Bioelectronic Medicine Fund Phase II. Co-PIs Smith, Brunton, Horwitz, Fawcett, Donaldson & Anikeeva. \$1M/year total costs.

Current grants to support laboratory trainees

- 2016-2018 PI. Activity Dependent Rehabilitation with Electrical Spinal Stimulation (ADDRESS). Center for Sensorimotor Neural Engineering (CNSE). CSNE-2013-6. Inanici (Graduate Trainees). \$50,387/year.

2014-2016 PI. Artificial feedback for sensory restoration. Center for Sensorimotor Neural Engineering (CNSE) and UWIN. Bjanec (Graduate Trainee). \$50,387/year.

Past Funding

2009-2014 PI (20% time) Combined stem cell transplantation and targeted microstimulation to direct the formation of functional connections and neural repair. NIH/NINDS EUREKA R01 1R01NS066357. Moritz & Horner (multi-PI). \$200,000/year, Moritz Share \$100,000/year. No-cost extension to 7/2014.

2009-2010 PI (16% time) Reconnecting the brain and spinal cord after injury via an autonomous electronic device. Univ. of Washington Royalty Research Fund # 4471. Moritz (PI). \$38,339.

2009-2010 PI (5% time) Rehabilitation gaming for improvement of neurological function & compliance with movement practice. Pacific Northwest Center for Neural Engineering. Moritz, McCoy, Flick (multi-PI). \$5,500.

2009-2010 PI (5% time) Neural control of a robotic finger: individual muscles vs. endpoint control. Pacific Northwest Center for Neural Engineering. Moritz & Matsuoka (multi-PI). \$4,980.

2009-2010 Co-PI (2% time) Lower level feedback enhances brain computer: interface control of robots for grasping tasks. Pacific Northwest Center for Neural Engineering. Chizeck, Moritz, Smith (multi-PI). \$10,000.

2009-2013 PI (20% time) Restoring movement following stroke: training spared cortical areas to control paralyzed muscles. American Heart & Stroke Association, NCRP Scientist Development Grant 09SDG2230091. Moritz (PI). \$70,000/year.

2010-2011 PI (25% time). Administrative Supplement. NIH/NINDS EUREKA R01 1R01NS066357. Moritz (PI). \$50,000.

2010-2011 Co-PI (10% time), Rehabilitation gaming using wireless electromyography. Commercialization Gap Fund. University of Washington Center for Commercialization and Washington Research Foundation. Otis, Moritz & McCoy (multi-PI). \$44,275.

2011-2012 Co-PI (1% time). Rehabilitation gaming and upper extremity recovery after stroke: a pilot study. ITHS Washington Small Grant. McCoy, Moritz, Otis (co-PI). \$10,000.

2011-2013 Mentor (1% time). Closed Loop Neurostimulation for Psychiatric Disorders. Center for Sensorimotor Neural Engineering (CNSE) seed funding. CSNE-2011-6. Widge (Medical Resident Trainee). \$5,560/year.

2011-2013 Co-Investigator (1% time). Low Power Wireless Stimulation Chips for BCIs. Center for Sensorimotor Neural Engineering (CNSE) seed funding. CSNE-2011-6. Otis (PI). \$47,100/year.

- 2011-2013 Co-mentor (1% time). Optimizing BMI Design for Brain Adaptation. Center for Sensorimotor Neural Engineering (CNSE) seed funding. CSNE-2011-6. Matlack (Graduate Trainee). \$47,344/year.
- 2012-2013 PI (4% time) Automated NeuroGame Therapy after brain injury. Washington Research Foundation \$48,279.
- 2012-2013 Co-PI (1% time) Information coding and learning in brain-to-brain communication. UW Royalty Research Fund. Rao (PI) \$23,412.
- 2012-2014 Mentor (2% time) Light-activated interneuron transplants for targeted repair of the central nervous system. Sackler Scholars in Biophysics Postdoctoral Fellowship. \$50,000/year.
- 2012-2014 PI (15% time) A Brain-Machine-Spinal Interface (BMSI) to replace and repair the injured nervous system. DARPA Young Faculty Award, D12AP00251. \$100,000/year.
- 2013-2015 PI (15% time) Synchronous stimulation and ChABC therapy to restore function after SCI. Neilsen Foundation Pilot Grant (#259314). \$150,000/year total costs.
- 2015 Lead PI (8% time). BIONIC: Bi-directional Optical Nerve Interface for Continence. GlaxoSmithKlein (GSK) Bioelectronic Medicine Fund. Co-PIs Smith, Brunton, Horwitz & Anikeeva. \$200,000/6 months total costs.

Past grants to support laboratory trainees

- 2013-2016 PI. A Brain-Machine-Spinal Interface (BMSI) to reanimate & rehabilitate the injured nervous system. Center for Sensorimotor Neural Engineering (CNSE). CSNE-2013-6. Ievins & Inanici (Graduate Trainees). \$50,387/year.
- 2014-2016 PI. Artificial feedback for sensory restoration. Center for Sensorimotor Neural Engineering (CNSE) and UWIN. Bjanec (Graduate Trainee). \$50,387/year.
- 2014-2016 Mentor. Light-activated interneuron transplants for targeted repair after SCI. Neilsen Foundation Postdoctoral Fellowship to Sarah Mondello. \$82,500/year total costs.

Past Training Grants

- 2002-2003 American Society of Biomechanics Graduate Student Grant-in-aid \$1,500.
- 2005-2008 PI (100% time) Cortical signals restore functional muscle activation. NIH NINDS Ruth L. Kirschstein NRSA Individual Postdoctoral Fellowship F32NS5101 Moritz PI. \$149,772 total direct costs.

National and International Invitational Lectures

1. Keynote Speaker, University of Calgary Medical Science Trainee Symposium (2009) *A brain-machine interface for the treatment of paralysis.*
2. Presidential Lecture, Association for Applied Psychophysiology & Biofeedback (2009) *Direct control of paralyzed muscles by cortical neurons: Implications for biofeedback in the treatment of paralysis.* Albuquerque, NM.

3. Symposium speaker, International Spinal Research Trust Network Meeting, London, UK (2011) *Neuroprosthetic approaches to the treatment of SCI*.
4. Symposium Speaker, International Symposium on Neural Regeneration (2011) *Leveraging neural plasticity for the treatment of paralysis and other movement disorders*. Asilomar, CA.
5. Keynote Address, Association for Applied Psychophysiology & Biofeedback (2013) *Neural Devices and Biofeedback for Rehabilitation of the Damaged Central Nervous System*. Portland, OR.
6. Plenary Presentation, International Collaboration on Repair Discoveries (ICORD) Trainee Symposium (2013), *Neural engineering techniques to activate and rehabilitate the injured spinal cord*, Vancouver, BC.
7. Invited Speaker, 8th Annual Working 2 Walk Symposium (2013) *Neural devices to activate and rehabilitate the injured spinal cord*, Boston, MA.
8. Invited Speaker, 9th Annual Working 2 Walk Symposium (2014) *Development of a brain-computer-spinal interface to restore hand & arm function*, Seattle, WA.
9. Invited Speaker, Spinal Cord Injury: Mechanisms to Restore Function (2015). *Neural devices to activate and rehabilitate the injured spinal cord*. Salk Institute, La Jolla, CA.
10. Merrill P. Spencer, M.D., Endowed Lectureship. Neural interfaces and other advanced technology for stroke recovery (2016). Swedish Hospital, Seattle, WA.
11. Invited Speaker, NIH Standards in Brain Computer Interfaces workshop (2016). National Institutes of Health (NIH), Bethesda, MD.
12. Invited Speaker, IV Step Conference on Neurological and Pediatric Physical Therapy (2016). *Developing neuroprosthetic devices to promote plasticity and rehabilitation after brain and spinal cord injury*. Columbus, OH.

National and International Presentations

1. Dept. of Integrative Physiology, Univ. of Colorado (2003) *Control and mechanics of bouncing gaits on natural surfaces*. Boulder, CO.
2. School of Kinesiology, Simon Fraser University (2005) *Challenges in reanimating the limbs after spinal cord injury: the interplay of biomechanics & neural control*. Burnaby, BC.
3. Dept. of Cell Biology and Neuroscience, Univ. of Alberta (2007) *Toward a neuroprosthetic for reanimating paralyzed limbs*. Edmonton, AB.
4. Dept. of Biology, Psychology and Behavioral Neuroscience, Western Washington Univ. (2010). *Promoting neural plasticity for the treatment of paralysis and other movement disorders*. Bellingham, WA.
5. The Northwest Intermountain consortium (NIC) of Physical Therapy Clinical Education Conference (2011). *Translating pathophysiology knowledge into physical therapy practice*. Tacoma, WA.
6. Neurosurgery Grand Rounds, University of Kansas Medical School (2011). *Developing neuroprosthetics for the treatment of paralysis following CNS injury*. Kansas City, MO.

7. International Functional Electrical Stimulation Society (2012). *Cervical intraspinal micro-stimulation improves forelimb motor recovery after spinal contusion injury*. Banff, AB.
8. DARPA RE-NET PI meeting (2012) *A Brain-Machine-Spinal Interface (BMSI) to replace and repair the injured nervous system*. New Orleans, LA.
9. DARPA RE-NET Review meeting (2014) *A Brain-Machine-Spinal Interface (BMSI) to replace and repair the injured nervous system*. Scottsdale, AZ.
10. Invited Speaker, NeuroFutures Conference (2014). *Restoring function after spinal cord injury: cortico-spinal neuroprostheses*, Seattle, WA.
11. Speaker and Co-organizer, Joint DFG-NSF Workshop on New Perspectives of Neurotechnology and Neuroengineering. (2014) *Brain-controlled spinal stimulation for reanimation of the paralyzed forelimb*, Washington DC.
12. Allen Distinguished Investigator Life Sciences Symposium (2015). Development of a Brain-Computer-Spinal Interface (BCSI). La Jolla, CA
13. Bioelectronic Medicine Grand Challenge meeting (2015). BIONIC approach to optical control of urinary continence. Los Angeles, CA.
14. Session organizer and introductory speaker, International Symposium on Neural Regeneration (2015), Asilomar CA.
15. Department of Integrative Physiology Colloquium, University of Colorado (2016) *Developing Neural Devices to Promote Plasticity and Recovery After Spinal Cord Injury*, Boulder, CO.
16. Department of Neurobiology and Anatomy, Drexel University (2016) *Neural Devices to Promote Plasticity and Recovery After Spinal Cord Injury*. Philadelphia, PA.
17. Invited Speaker, NeuroFutures Conference (2016). *Neuroprosthetic strategies to improve function after brain and spinal cord injury*. Seattle, WA.
18. Invited Speaker, North West Medical Laboratory Symposium (2016). *Biodevices & neurotechnology to improve quality of life after brain & spinal cord injury*. Portland, OR.

Local Presentations

1. Neurobiology and Behavior, Univ. of Washington (2007) *Toward a neuroprosthetic for reanimating paralyzed limbs*. Seattle, WA.
2. H.D. Patton Symposium, Physiology and Biophysics, Univ. of Washington (2007) *Using brain activity to control stimulation of paralyzed muscles*. Seattle, WA.
3. Computational Neuroscience Connection, University of Washington (2009) *Brain-machine interfaces: Giving priority to the most intelligent controller*. Seattle, WA.
4. H.D. Patton Symposium, Physiology and Biophysics, Univ. of Washington (2009) *Leveraging technology for the treatment of movement disorders*. Seattle, WA.
5. Department of Rehabilitation Medicine, University of Washington (2009) *Neuroprosthetic technology for the treatment of movement disorders*. Seattle, WA.
6. Department of Rehabilitation Medicine, University of Washington (2010) *Developing technology for the treatment of movement disorders*. Seattle, WA.
7. H.D. Patton Symposium, Physiology and Biophysics, Univ. of Washington (2010) *Promoting neural plasticity for the treatment of movement disorders*. Seattle, WA.

8. Grand Rounds, Department of Rehabilitation Medicine, University of Washington (2010) *Shaping neural activity for the treatment of paralysis and other movement disorders*. Seattle, WA.
9. UW TAPAS, South Lake Union Seminar Series (2011) *Promoting neural plasticity for the treatment of movement disorders*. Seattle, WA.
10. Northwest Regional Spinal Cord Injury System, Consumer Forum (2011) *Developing neuroprosthetic treatments for spinal cord injury*. Seattle, WA.
11. Pacific Northwest American Academy of Orthotists and Prosthetists Annual Meeting (2011) *Brain Computer Interfaces (BCI): Implications for the Future of Prosthetics & Orthotics*. Seattle, WA.
12. Harborview Medical Center Department of Rehabilitation Therapies Stroke Symposium (2011) *Computer Brain Interfaces for Stroke Rehabilitation*. Seattle, WA.
13. Neurobiology and Behavior program, Univ. of Washington (2011) *Leveraging neural plasticity for the treatment of paralysis and other movement disorders*. Seattle, WA.
14. UW Medicine SCI Core Group (2012) *Electrostimulation methods for spinal cord rehabilitation*. Seattle, WA.
15. UW Institute for Stem Cell and Regenerative Medicine, Symposium on Neural Regeneration: Cell engineering to cell therapy (2012) *Can neural devices replace or repair the damaged CNS?* Seattle, WA.
16. Center for Sensorimotor Neural Engineering (2012) *Neural Engineering to Replace, Repair, and Rehabilitate the Central Nervous System*. Seattle, WA.
17. Justus F. Lehman Day (2012) *Neural Technology to Rehabilitate, Replace, or Regenerate the Damaged Central Nervous System*. Seattle, WA.
18. Seattle Public Library (2012) Neuroscience community outreach. *Brain-Computer Interfaces to replace or repair the injured central nervous system*. Seattle, WA.
19. Electrode workshop: Center for Sensorimotor Neural Engineering (2013) *Cortical Recording Performance and Neuroprosthetic Applications*. Seattle, WA.
20. International Symposium on Cognitive Neuroscience Robotics (2013) *Intraspinal stimulation for re-animation and repair of the injured spinal cord*. Seattle, WA.
21. TriBeta Undergraduate Biology Club, Department of Biology (2013) *Neuroprosthetic Technology: Treatment of paralysis and other movement disorders*. Seattle, WA.
22. Center for Integrative Brain Research, Seattle Children's Research Institute (2013). *Neural Devices for Rehabilitation of the Injured Central Nervous System*. Seattle, WA.
23. Grand Rounds, Department of Rehabilitation Medicine, University of Washington (2013) *Neural Devices for Rehabilitation of the Injured Central Nervous System*. Seattle, WA.
24. Animal Welfare Office, University of Washington (2014) *Animal models for the development of neural devices to treat paralysis*. Seattle, WA.
25. Math-Science Upward Bound (MSUB) summer program for underrepresented high school students (2014) *Neural devices to restore function after spinal cord injury*. Seattle, WA.
26. Keynote Speaker, Spinal Cord Injury (SCI) Wellness Summit (2014). *Restoring function after spinal cord injury: New research in neural stimulation*, Seattle, WA.

27. H.D. Patton Symposium, Physiology and Biophysics, Univ. of Washington (2014) *Neural devices to restore function after spinal cord injury*. Leavenworth, WA.
28. Computational Neuroscience Connection (2014) *Projects and challenges at the Center for Sensorimotor Neural Engineering*. Seattle, WA
29. Department of Rehabilitation Medicine All Staff Meeting, University of Washington (2014) *Neural technology to restore, repair or rehabilitate the injured brain and spinal cord*. Seattle, WA.
30. Department of Neurological Surgery Grand Rounds, University of Washington (2014). *Developing neuroprosthetic devices to restore function after brain and spinal cord injury*. Seattle, WA
31. Program in Neuroscience Seminar Series, University of Washington (2015). *Neural devices to activate and rehabilitate the injured spinal cord*. Seattle, WA
32. Jelinek Summer Workshop on Speech and Language Processing (2015). *Neural Engineering and Neuroprostheses*. Seattle WA.
33. Electrical Engineering Department, University of Washington (2016). *Bioelectronic devices to improve quality of life after spinal cord injury*. Seattle, WA.
34. Math-Science Upward Bound (MSUB) summer program for underrepresented high school students (2016) *Neural devices to restore function after spinal cord injury*. Seattle, WA.
